

HB BEARINGS

FOR

Historic Car & Motorcycle Bearings

**Rebuilding a classic car,
motorcycle, racing or touring?**

Do you need a bearing that is proving impossible to find and manufactured in small quantities?

Then contact HB Bearings.

All we require is the bearing reference number and the manufacturers name (not the vehicle part number).

For older bearings (or where no bearing number is available) we will require the type, sizes, photographs or sample so we can reverse engineer. To make a start, tell us the quantities you require.

E-mail sales@hb-bearings.com or phone on 01484 665116

HB has over 45 years experience in manufacturing quality bespoke bearings.

MANUFACTURED IN GREAT BRITAIN

HB BEARINGS

FOR HISTORIC CAR & MOTORCYCLE BEARINGS

- Low volumes, short lead times
- Many imperial bearings ex-stock
- Very competitively priced
- Bearings reverse engineered from samples
- Manufactured in Great Britain
- Large archive of bearing references
- For classic cars & motorcycles
- For all types of motorsport, rally, circuit racing, hill climb and road racing.

COST EFFECTIVE QUANTITIES

Ordering just 1 off is possible, but will be at the upper limit of the manufacturing cost.

However, if you could join together with other individuals such as club members or single marque parts suppliers and order larger quantities, this would be reflected in a lower unit cost per bearing.

order 5, 10 or 15 off for example, for greater cost savings.

Bearings for Industry - up to 1.5 metres diameter

For over 45 years HB Bearings have been manufacturing bearings for industry. We specialise in manufacturing hard to obtain imperial and metric bearings. Shown here are some of the various types of special bearing that we have manufactured.

We can also manufacture hard to obtain *special* bearings previously manufactured by Hoffmann Bearings, RIV Bearings and Ransome & Marles Bearings (R&M). Please do not hesitate to contact us with your requirements.
